

We'd hate for you to miss what we've been up to...

A
PICNIK

On trend, hand crafted, retro. The Picnik's solid oak framework gives the range a chic finish to an otherwise traditional dining set. This is a product that demands community.

GLORIA

As soon as we came up with the Gloria we knew it would be a hit – it's comfortable, it's robust, it's even got its own backing track. Cue Van Morrison.

STAK+STORE

People are notoriously indecisive which is why we've created a storage system that is easy to install, reconfigure and allows for extension possibilities.

MUSE

With this modular seating range you can choose exactly what you want, what colour you want it in and how you want the elements organised.

DECK

A more substantial version to the chair on the beach and slightly less portable. This contemporary product with stylish hardwood arms is a perfect offering to any breakout area.

MAYFLOWER

The minimum amount of time the majority of us spend in our working environments is 8 hours per day. Sometimes we deserve a break.

We're trying hard to spread the word that we're not simply a steel storage manufacturer. If you haven't heard or you want to learn more about our swanky new additions (why you wouldn't leaves us stumped) then opt into receiving our promotions. It's quick and simple.

JUST CLICK HERE TO OPT IN

If not, we'll try not to take it too hard. It might even aid our campaign to get an office dog.

We love talking about all things furniture.
